Swiss Sport

Tourneau ups the ante with its newest collection of men's and women's Swiss-made watches. This Sportgraph Chronograph is part of an expanded, sporty offering by the watch retailer. Inside this 40mm steel model is a Valjoux 7750 automatic chronograph with sapphire caseback and deployant clasp. Price: \$1,395.

Montana Watch Company

American watch manufacturer Montana Watch Company has added a rectangular-cased Model 1930 to its line of hand-made watches. The 53 x 33mm case is available in a variety of precious and base metals and, like all Montana Watch Company timepieces, is machined from solid stock at the firm's Manhattan, Montana, machining facility. The ETA 2895 movement that powers the Model 1930 is regulated in-house. Each watch is built to order at the company's Livingston, Montana, studio. This watch starts at \$5,200.
